

Please do not weaken the IN Phone Privacy law. I have a 3 month old daughter & get little sleep as it is. It is annoying to be awoken with phone calls I do not want and like my privacy. If i want to do business, I will call them and they will actually lose business by solicting me. I should not have to pay a 40 phone bill instead of a 20 just to be able to see who is calling to know if i want to answer or not. Plus, the ringing phone is enough to cause me a lack of sleep when i can catch those zzz's. Thanks for protecting me as a consumer.
